Vo Thanh Truc

AI Product Owner
Hanoi, Vietnam | +84 90 000 2070 | truc.vo@example.com

About Me

Product Owner with 4 years on software used by real learners, including 2 years on AI features. I write acceptance criteria for AI behaviour, analyse data myself and build working prototypes with AI tools.

Experience

AI Product Owner Sep 2024 – Present

Studia Learning, Hanoi

- Own the backlog for an AI tutor used by 30,000 university learners and 400 instructors.
- Define expected AI behaviour and quality thresholds, then review outputs before each release.
- Run pilots with instructors and use dashboards and A/B tests to guide priorities.
- Build clickable and working prototypes with AI tools to test ideas with users.

Business Analyst Aug 2022 – Aug 2024

EduNest Platform, Hanoi

- Wrote user stories and acceptance criteria for an LMS and coordinated UAT and releases.
- Managed delivery schedules with engineering and academic stakeholders.

Tools & Methods

Product: User stories, business flows, backlog, UAT, release planning, pilots
AI quality: Acceptance criteria for AI output, evaluation thresholds, human review
Data: SQL, Metabase, A/B tests, funnel analysis
UX and prototyping: Wireframes, usability tests, Figma, Lovable, Claude, n8n

Education

B.Sc. in Information Systems, VNU International School, 2018 – 2022

Languages

Vietnamese (native), English (fluent, IELTS 7.5)
