# Nguyen Dinh Khoi

Embedded Firmware Engineer
Da Nang, Vietnam | +84 90 000 2098 | khoi.nguyen@example.com

## About Me

Firmware engineer with 3 years of experience writing C for microcontrollers. I enjoy working close to hardware and debugging timing problems.

## Experience

**Embedded Firmware Engineer** Jul 2023 – Present

*SmartSense Devices, Da Nang*

- Develop FreeRTOS firmware for battery-powered sensors.
- Write low-level drivers and reduce standby power consumption.
- Validate boards with hardware engineers on the bench.

## Tools & Methods

**Languages:** C, Embedded C, Assembly
**Hardware:** STM32, ESP32, UART, SPI, I2C, FreeRTOS
**Tools:** Keil, oscilloscope, logic analyser, Git

## Education

B.Eng. in Electronics and Telecommunications, University of Danang, 2019 – 2023

## Languages

Vietnamese (native), English (intermediate)
