Ly Tuan Kiet

Product Owner, AI and Data Products

Hanoi, Vietnam | +84 90 000 2021 | kiet.ly@example.com

Summary

Product Owner with 6 years on AI and data-heavy products, covering in-vehicle voice assistants and fraud detection. I start from the what and the why, use data to find root causes, and then work with data scientists and engineers on the how.

Work Experience

Senior Product Owner Mar 2023 – Present

Vela Mobility Tech, Hanoi

- Own the backlog for an in-car voice assistant and driver-monitoring features across 3 vehicle models.
- Turn stakeholder priorities and user research into requirements for AI engineers and data scientists.
- Raised task completion for voice commands from 74% to 89% by reframing the problem around failed intents.

Product Owner, Fraud Detection Jan 2020 – Feb 2023

SwiftRide Platform, Hanoi

- Owned the fraud data product for a mobility network, working with risk and analytics teams.
- Translated risk scenarios into requirements for ML models that cut promotion abuse by 42%.
- Defined review queues and metrics that kept false positives under 2%.

SKILLS

Product: Backlog management, user stories, discovery, prioritisation, roadmaps, Scrum

AI and data: ML lifecycle, model metrics (precision, recall), LLM features, A/B testing, risk scenarios

Tools: Jira, Confluence, SQL, Metabase, Figma

EDUCATION

B.Sc. in Management Information Systems, National Economics University, 2015 – 2019

LANGUAGES

Vietnamese (native), English (fluent, IELTS 7.5)
